

PROVIDER ALERT

MULTIPLE RENDERING PROVIDERS IN ONE DAY

UPDATE

MARCH 12, 2018

The Maryland Department of Health and Beacon have resolved the billing issue with multiple ABA providers rendering direct services to a member on the same day. Providers will be reimbursed for two or more Medicaid enrolled staff who render direct ABA therapy to the same participant in a single day. This change will be retroactively effective for services provided since January 1, 2017.

While this change has been approved, the claims system will need to be adjusted to allow these claims to pay. Once this process has been completed, we will provide instructions on how these claims should be submitted by providers.

However, providers may begin allowing multiple staff to render pre-authorized direct ABA therapy with members and these claims will be processed once the edits to the system have been completed.

If there are any questions regarding this notification, you may contact Josh Carlson, Manager of Provider Partnerships-ABA, at:
