

PROVIDER ALERT
February 17, 2010

Providers requesting concurrent OMS authorizations for consumers initially authorized for services by MAPS-MD may be receiving authorizations for 150 visits within a three month, rather than a six month, time span.

The problem has been identified and will be corrected in the March 26th ProviderConnect release.

In the interim, OMS authorizations created with a 3 month time span will be systemically corrected. No action is required on the part of the providers.
