Brian M. Hepburn, M.D., Executive Director

May 1, 2012

Dear Providers:

Dr. Gayle Jordan-Randolph has asked me to conduct a survey reflecting the way in which providers are monitoring consumers who are conditionally released. The purpose of this survey is to provide a framework for analysis on how the Mental Hygiene Administration can build on its current community monitoring system. In particular, the survey emphasizes our evolving commitment to the integration of behavioral health with somatic care, developmental disabilities, and substance abuse care.

Over the next several months, I will be making appointments with providers across the state of Maryland to conduct the survey. If you have any questions or comments, please do not hesitate to contact me at 410-402-7517 or shemmer@dhmh.state.md.us.

Sincerely,

Stefany H. Hemmer, BS, MSN, RN

Assistant to the Office of the Clinical Director
