

PROVIDER ALERT

SUBMIT SAME DAY SERVICES ON ONE CLAIM

JULY 17, 2012

All institutional outpatient services performed on the same day must be submitted on a single claim.

If multiple services are provided on the same day for like services, that is, those with the same revenue code, the provider should combine the like services for each day and report the rate along with the number of units provided.

Outpatient revenue codes include services for Partial Hospitalization (0912), Intensive Outpatient (0905, 0949), and Outpatient Therapy Services (0914-0919, 0510, 0513).

This rule also applies to all ancillary services. For the complete list of ancillary services, refer to the Service Matrix at:

[http://maryland.valueoptions.com/provider/clin ut/Maryland Service Grid.pdf](http://maryland.valueoptions.com/provider/clin_ut/Maryland_Service_Grid.pdf).

These billing rules are effective immediately and apply to all institutional outpatient claims transactions (including retroactive adjustments).
