

PROVIDER ALERT

OMS PROVIDER DOCUMENTATION UPDATES

OCTOBER 24, 2012

The following OMS documents, as well as the OMS Interview Guide, have been revised to reflect more closely what is seen in ProviderConnect. All of the edits are minor, except the questionnaires reflect that the smoking question is now mandatory (that change happened earlier this year).

If your staff uses a paper version of the forms, please replace the forms with these most current revised versions, which can be found on the ValueOptions Maryland web site under the OMS section of Provider Forms

(http://maryland.valueoptions.com/provider/prv_forms.htm):

Adult Questionnaire

Child and Adolescent Questionnaire

Discharge Information Sheet

Adult Discharge Form – Consumer Not Participating

Child and Adolescent Discharge Form – Consumer Not Participating

OMS Interview Guide

As a reminder the OMS data has been configured to allow a provider to see their individual provider-level information, using a unique log-in. If you have not registered to see your individual data, please see the ValueOptions Provider Alert from September 13, 2012 for details on how to access it (http://maryland.valueoptions.com/provider/prv_alerts.htm).
