

## PROVIDER ALERT

### COMBINATION OF SERVICES UPDATE

MARCH 18, 2013

The Combination of Services Grid for the Maryland Public Mental Health System has been corrected to accurately reflect existing MHA policy.

**Providers are not allowed to bill a psychiatric diagnostic evaluation (90791/90792) and provide psychotherapy service (90832/90833, 90834/90836 or 90837/90838) on the same day in an OMHC.**

This has been standard practice within the Maryland Public Mental Health System for quite some time. The revised Combination of Services Grid is attached and will be posted to the ValueOptions Maryland website shortly.

We regret any resulting confusion.
