

**PROVIDER ALERT  
NEW MEDICAID ELIGIBILITY REPORT  
JULY 22, 2015**

**This replaces the PROVIDER ALERT issued July 20, 2015 entitled:  
ELIGIBILITY RE-DETERMINATION REPORTS (the attached report is not a Medicaid eligibility re-  
determination report)**

ValueOptions is pleased to reinstate the New Medicaid Eligibility Report to identify individuals with new Medicaid eligibility effective within the prompted date range. An open authorization with your organization is required to be included in this report.

The report has been posted as shown below to the IntelligenceConnect system:

A redacted sample of this report has been included on the following page. A tip sheet has also been added to assist with navigating and running the reports.

Questions and IntelligenceConnect access requests can be submitted to the ValueOptions E-Help Desk 888-247-9311 from 8am-6pm EST.

Report Run Date: 06/04/15

# Using Intelligence Connect

“User Cheat Sheet” – June 2015

## Concept

Intelligence Connect is software that runs inside a browser (I.E. 6+). It is a central location to run, schedule, export, and configure reports.

## Log On and Get Reports

1. Log into Client Connect or Provider Connect
2. Click the Reports Link

3. For the Report List, click the **Document List** button (or link)

### Intelligence Connect Gotchas!

- Avoid running reports with large date ranges to improve efficiency
- Reports are delivered via the Internet. Sometimes network traffic may slow delivery.
- Answer *all* your parameters, when presented, to avoid blank reports.

## Scheduling and Parameters

1. Right Click a report name
2. Choose **Schedule**

3. Configure your report to suit your needs.
4. Click the **Schedule Button** when finished with configuration.

## Configuration Notes

**Parameters**—Click the Edit button for each parameter and choose from the options.

**Recurrence**—set a pattern to distribute the report, or run it “now”.

**Format** – Change the report Format. Popular settings include PDF, MS Excel, or CSV.

**Destination**—Save locally or send to multiple Email account, etc.
