

PROVIDER ALERT

MARYLAND EARLY INTERVENTION PROGRAM PROFESSIONAL DEVELOPMENT

AUGUST 31, 2015

The Maryland Early Intervention Program (EIP) is excited to announce the addition of 14 NEW high quality, multi-media FREE professional development online modules on www.mdbehavioralhealth.com. In these new modules we welcomed presenters from NAMI, the Cornerstone Montgomery Mental Health Clinic, and the RAISE Connection Program, in addition to our EIP workgroup members.

In total there are now 24 modules available for instructional and informational purposes to educational, health, and behavioral health professionals, families, and others who may be involved with the treatment of youth and young adults at risk for, or in the early stages of, a mental illness with psychosis.

These 14 new modules expand our focus to safety planning, ethical and forensic considerations, stigma, violence, motivational interviewing, CBT techniques, and much more!

Visitors to the online platform can view training modules, download informative resource materials, view video tips from experts and consumers, and explore related links to other organizations and programs, all from one central site. To access the Maryland Early Intervention Program (EIP) training platform, please visit www.mdbehavioralhealth.com and register for this training!!

For further information, please feel free to contact the Maryland Early Intervention Team (www.marylandeip.com) at 1-877-277-MEIP (6347) or email at: info@MarylandEIP.com.
