

PROVIDER ALERT

PROVIDER SUMMARY VOUCHER ISSUE

JULY 5, 2016

Some provider summary vouchers for the June 28th check run for State of Maryland payments have been delayed. Payments have been credited to all provider accounts and vouchers for Medicaid funding have been produced. However, some provider summary vouchers for State of Maryland payments are still in process.

Beacon Health Options is working on the situation and apologizes for the delay. We will send a new Alert once the vouchers become available on-line.
