

PROVIDER ALERT

MARYLAND MEDICAID FEE SCHEDULE ADJUSTMENT

AUGUST 24, 2017

Attached you will find an adjusted Maryland Medicaid fee schedule. There were approximately 32 Evaluation and Management (E&M) codes that were increased in error by 2% as part of the community based adjustment that occurred July 1, 2017. E&M rate adjustments are determined by Medicare and adopted by the State and should not have been increased as part of the community base services increase.

Codes highlighted in green are corrected in the attached fee schedule. Claims retractions of the incorrect 2% increase on these codes from July 1 forward will occur over the next month.

We apologize for any inconvenience.
