

Type of Care Code and its Descriptions

TCRCOD	DESCRIPTION	SERVICES PROVIDED	Link to the Beacon Provider Manual
AT	Art Therapy	Expressive and experiential behavioral Services means the use of art, dance, music, equine, horticulture or drama to accomplish individualized goals as part of the plan of care. Services may be provided individually or in a group.	http://maryland.beaconhealthoptions.com/provider/manual/CH06_20-MH-HCBS.pdf
CM	Case Management Services	Targeted case management (TCM) programs are available to assist participants with gaining access to the full range of available mental health services, as well as to any needed medical, social, financial, counseling, educational, housing, and other supportive services needed in order to maintain stability in the community.	http://maryland.beaconhealthoptions.com/provider/manual/CH06_15-MH-CMS.pdf
CSS	Crisis and Stabilization Services	Crisis stabilization beds provide short-term psychiatric treatment within a structured, community-based therapeutic setting. The goal of this level of care is to provide a comprehensive assessment, stabilize the member in crisis, and restore the member to a level of functioning that would require a less intensive treatment setting, while preventing an unnecessary hospital admission and transition the member back to community-based services, supports and resources.	https://www.beaconhealthoptions.com/wp-content/uploads/2016/10/NMNC-2-201-02-Crisis-Stabilization-Services-2017.pdf
DAT	Dance Therapy	Expressive and experiential behavioral Services means the use of art, dance, music, equine, horticulture or drama to accomplish individualized goals as part of the plan of care. Services may be provided individually or in a group.	http://maryland.beaconhealthoptions.com/provider/manual/CH06_20-MH-HCBS.pdf
DRT	Drama Therapy	Expressive and experiential behavioral Services means the use of art, dance, music, equine, horticulture or drama to accomplish individualized goals as part of the plan of care. Services may be provided individually or in a group.	http://maryland.beaconhealthoptions.com/provider/manual/CH06_20-MH-HCBS.pdf
EAT	Equine Assisted Therapy	Expressive and experiential behavioral Services means the use of art, dance, music, equine, horticulture or drama to accomplish individualized goals as part of the plan of care. Services may be provided individually or in a group.	http://maryland.beaconhealthoptions.com/provider/manual/CH06_20-MH-HCBS.pdf
ECT	Electroconvulsive Therapy	Electroconvulsive therapy (ECT) is a procedure during which an electric current is passed briefly through the brain, via electrodes applied to the scalp, to induce generalized seizure activity.	http://maryland.beaconhealthoptions.com/provider/manual/CH07_24-Electroconvulsive-Therapy.pdf
ET	Extended Therapy Sessions	The goals of extended outpatient therapy may include crisis resolution, symptom reduction, stabilization, improvement in adaptation, and/or recovery from addiction. The treatment modality, frequency and length of treatment should be individualized for each member.	http://maryland.beaconhealthoptions.com/provider/manual/CH06_20-MH-HCBS.pdf
FYT	Family and Youth Training	Achieve quality family and youth driven outcomes by advancing the philosophy, practice and principles of High Fidelity Wraparound through training, coaching, credentialing and ensuring fidelity to the process.	N/A

HD	Hospital Diversion	The practice of effectively “closing” an emergency department to area’s Emergency Medical Services agencies.	N/A
HT	Horticultural	Expressive and experiential behavioral Services means the use of art, dance, music, equine, horticulture or drama to accomplish individualized goals as part of the plan of care. Services may be provided individually or in a group.	http://maryland.beaconhealthoptions.com/provider/manual/CH06_20-MH-HCBS.pdf
IMHA	Inpatient Mental Health- Acute	Acute inpatient psychiatric treatment is defined as 24-hour inpatient level of care that provides highly skilled psychiatric services to participants with severe mental disorders.	http://maryland.beaconhealthoptions.com/provider/manual/CH07_25-Acute-Neurobehavioral-Unit-Inpatient-Mental-Health.pdf
IOP	Intensive Outpatient Program	Intensive Outpatient Program is a short-term, intensive treatment intervention provided by a multidisciplinary team involving multiple treatment services across multiple days per week. An IOP provides a minimum of three hours of psychiatric therapeutic activities per day, which includes at least two group therapies and needed psychiatric services. The treatment constellation can include individual, group, family therapy, and medication management.	http://maryland.beaconhealthoptions.com/provider/manual/CH06_17-MH-IOP.pdf
MM	Medical Management	Medical Management provides outpatient biopsychosocial, psychiatric, nursing and laboratory assessment, case management, medication prescription or administration and pharmacy services.	
MT	Mobile Treatment/ACT	Mobile treatment services (MTS) are designed for adults with serious mental disorders who exemplify a lack of adherence to traditional services and vulnerability. MTS provides treatment in the least intensive setting that is able to meet the participant’s clinical needs.	http://maryland.beaconhealthoptions.com/provider/manual/CH07_13-Mobile-Treatment-Services-Adult.pdf
MUT	Music Therapy	Expressive and experiential behavioral Services means the use of art, dance, music, equine, horticulture or drama to accomplish individualized goals as part of the plan of care. Services may be provided individually or in a group.	http://maryland.beaconhealthoptions.com/provider/manual/CH06_20-MH-HCBS.pdf
NOMS	OPMH Non OMS		
OBS	Observation Room	A well-defined set of specific, clinically appropriate services, which include ongoing short term treatment, assessment, and reassessment, that are furnished while a decision is being made regarding whether clients will require further treatment as hospital inpatients or if they are able to be discharged from the hospital.	
OECT	Outpatient ECT	ECT works by the electrical induction of a controlled seizure. ECT is routinely done as an outpatient and patients go home after spending a few hours recovering from anesthesia.	

OMS	OPMH OMS	OMS is only for outpatient services. The OMS collects data through interviews with mental health professionals, participants, or child/adolescent/caregivers utilizing OMS questionnaires. The OMS questions cover several life domains including living situation, employment, school attendance, substance use, legal system involvement, symptoms, and functioning, among others.	http://maryland.beaconhealthoptions.com/provider/manual/CH19-OMS.pdf
OT	Occupational Therapy	Occupational therapy involves a performance-based assessment and services relating to participant functioning in activities of daily living, cognitive skills, sensory motor skills, and psychosocial skills.	http://maryland.beaconhealthoptions.com/provider/manual/CH06_11-MH-Occupational-Therapy-Services.pdf
OTR	Other		
PHP	Partial Hospitalization	Partial hospitalization programs (PHP), also known as psychiatric day treatment services, must be rendered by a provider approved under COMAR 10.21.02. This is an outpatient, short-term, intensive, psychiatric treatment service that parallels the intensity of services provided in a hospital, including medical and nursing supervision and interventions.	http://maryland.beaconhealthoptions.com/provider/manual/CH06_03-MH-Partial-Hospitalization-Services.pdf
PRP	Psychiatric Rehabilitation	Psychiatric rehabilitation program (PRP) services facilitate the participant's recovery and develop or restore a participant's independent living and social skills, including the participant's ability to make decisions regarding: self-care management of illness, life, work and community participation; and promote the use of resources to integrate the participant into the community.	http://maryland.beaconhealthoptions.com/provider/manual/CH07_11-Psychiatric-Rehabilitation-Program-Adult.pdf
PSYT	Psychological Testing	Psychological testing involves the administration of reliable and valid psychological tests for the purpose of answering specific questions about the participant's diagnosis and the development of clinically appropriate treatment recommendations.	http://maryland.beaconhealthoptions.com/provider/manual/CH07_22-Psychological-and-Neuropsychological-Testing.pdf
PTP	Peer to Peer	Peer-to-peer support services are offered to ensure that family and participant opinions and perspectives are incorporated into the CFT process and plan of care. Services are provided by a family support organization (FSO) as described in COMAR 10.09.89.10.	http://maryland.beaconhealthoptions.com/provider/manual/CH06_20-MH-HCBS.pdf
RC	Residential Crisis	Residential crisis services are funded with State general funds and are short-term, intensive, mental health and support services for children, adolescents, and adults in a community-based, non-hospital, residential setting rendered by a provider approved under COMAR 10.21.26.	http://maryland.beaconhealthoptions.com/provider/manual/CH06_10-MH-Residential-Crisis.pdf
RCIH	Respite Care - In Home	Respite services are offered to provide stabilization and relief to caregivers from the stress of care giving. These services may be provided in the home or community. In-home services offer additional temporary support, in the home and overnight.	http://maryland.beaconhealthoptions.com/provider/manual/CH07_19-Respite-Care-Adult.pdf

RCOH	Respite Care - Out of Home	Out-of-home respite services provide a temporary overnight living arrangement outside the participant's home.	http://maryland.beaconhealthoptions.com/provider/manual/CH07_19-Respite-Care-Adult.pdf
RRP	Residential Rehab	Residential rehabilitation programs (RRPs) for adults provides support in a residence outside of the participant's own home and provides needed resources and support not sufficiently available within the participants own existing social support system.	http://maryland.beaconhealthoptions.com/provider/manual/CH07_07-Residential-Rehabilitation-Program-Intensive-Adult.pdf
RS	Respite Services	Respite services are provided for adults with serious mental illness or children with serious emotional disorders. These services are administered by a program approved and operated under the provisions of COMAR 10.21.27 and are provided on a short-term basis in the participant's home or in an approved community-based setting.	http://maryland.beaconhealthoptions.com/provider/manual/CH06_07-MH-Respite-Services.pdf
RTC	RTC- Routine	An RTC provides children and adolescents who have long-term and serious emotional disturbance with residential care in a structured therapeutic milieu and provides a range of diagnostic and therapeutic mental health services. RTC treatment focuses on maximizing a participant's development of appropriate living skills.	http://maryland.beaconhealthoptions.com/provider/manual/CH06_02-Residential-Treatment-Services.pdf
SE	Supported Employment	SE provides job development, job coaching, and ongoing employment support services to individuals with serious mental illness for whom competitive employment has not occurred, has been interrupted, or has been intermittent.	http://maryland.beaconhealthoptions.com/provider/manual/CH06_06-MH-Supported-Employment.pdf
SH	Enhanced Support	Enhanced support services provide one-to-one supervision and assistance to an individual experiencing an increase or instability of psychiatric symptoms, based on medical necessity criteria, or individuals transitioning from an inpatient level of care.	http://maryland.beaconhealthoptions.com/provider/manual/CH06_08-MH-Enhanced-Support-Services.pdf
TBI	TBI Waiver Services	The program was initially designed as a resource for Maryland residents with TBI who could not be served in traditional long-term care settings within the State primarily due to the severity of their neurobehavioral deficits.	http://maryland.beaconhealthoptions.com/provider/manual/CH16-Medicaid-Waivers.pdf
TBS	Therapeutic Behavioral Services	The Therapeutic Behavioral Service (TBS) Program is a rehabilitative referred service for children and adolescents under 21 years of age. It is designed to provide rehabilitative treatment interventions to reduce or ameliorate the target maladaptive behavior(s) appropriately through restoration of a participant to his/her best possible functional level.	http://maryland.beaconhealthoptions.com/provider/manual/CH07_15-Therapeutic-Behavioral-Services-Child_Adolescent.pdf

The County of Arrest will appear in the first two characters of the field. If there is DPSCS involvement, that will appear in the last two characters of the field.
